

Bellberry is an award-winning, national, independent Not For Profit organisation providing streamlined scientific and ethical review of research projects across Australia.

Human Research ETHICS COMMITTEE

Bb Bellberry Limited
supporting research and ethics

We are Australia's largest provider of Human Research Ethics Committee services.

We return surplus funds to the research sector supporting our aims of protecting the welfare of research participants and improving the quality, efficiency and effectiveness of research.

Our team provides assistance from pre-submission and HREC review through to ongoing monitoring, ensuring research meets the highest ethical standards of practice and scientific integrity.

Our HRECs review

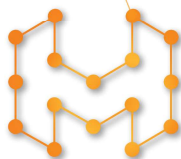

- Clinical drug trials
- Medical device trials
- Digital health and AI
- Social and behavioural science
- Evaluations
- Public health submissions
- Non-clinical health research

Why Bellberry?

- **Expertise** – Bellberry is Australia's largest HREC provider with a panel of approximately 200 expert HREC members. Our HRECs review all types of research including from First-in-Human to Phase 4 clinical trials.
- **Flexibility** – Every meeting is tailored to meet quorum requirements and match the expertise needed for each study, ensuring a rigorous and multi-disciplinary review.
- **Convenient** – Our HRECs hold virtual meetings weekly.
- **Support** – More than 60 support staff to assist throughout the submission and entire process for the life of the study.
- **Timely** – Average turnaround from submission to review decision of 21 business days.
- **Quality** – Our HRECs are registered and certified by the NHMRC. Bellberry is also internationally recognised for its excellence and ethically sound processes, with accreditation from the Association for the Accreditation of Human Research Protection Programs (AAHRPP).

Bb Bellberry Limited
supporting research and ethics

Why become a Bellberry HREC member?

Flexible membership

- No regular meeting requirement
- Attendance based on availability and required expertise
- 24/7 online access to study documentation via secure portal

We value your time

- Weekly HREC meetings held virtually (Wednesday evening), 6pm start SA time
- Members attend according to an agenda to meet National Statement (5.1.30) quorum requirements and the expertise needed
- Submissions available 12 days prior to a meeting
- Post-meeting items to be actioned within 48 hours
- Members' time and contribution are recognised

Professional development

- Induction and training for new members
- Ongoing internal and external education support
- Gain a front row seat to research innovation
- Supportive HREC community

What we're looking for in a HREC Member

- Understanding of the National Statement and relevant national and international human research guidelines
- Strong communication skills, including the ability to consider and convey balanced viewpoints
- Sound ICT skills

What we're looking for in a Medical/Science/Research HREC Member

- Experience in conducting research, particularly relating to drugs, devices, AI and digital health, epidemiology, behavioural/social sciences and evaluations
- Knowledge of research design and methodologies
- Knowledge and understanding of scientific and methodological requirements of research projects
- Relevant clinical experience and recognised qualifications to practise in Australia (medical/clinical members)
- Familiarity with national and international clinical research frameworks i.e. TGA, EMA, FDA, GCP (medical/clinical members)
- Understanding of the TGA and how it relates to clinical research (medical/clinical members)
